Connor Snedecor

Avid / Premiere Editor

Profile

Connor started his career as an offline editor in New Zealand, and is now a well established, much sought after editor in the UK. Connor's main passion and expertise lay in cutting comedy, both entertainment and scripted, although he is very versatile and can turn his hand to many other genres including factual and creative promo work with graphics. He is calm in high pressured environments, working to tight deadlines effectively either alone or in collaboration. He is frequently asked back to work on 2nd series and has developed something of a reputation for spinning development tapes into gold with at least 3 programmes being subsequently commissioned which he's gone on to cut the series for!
